

QUESTION OF LAW HAS BEEN RAISED

Madison Supervisors May Hold Office for Two Years Under the State Law.

JANESVILLE CASE

City Attorney Burpee Believes They Are County Officers Under Law of 1901.

Question has been raised at Madison as to the position of the state's attorney general in an unofficial opinion holding that members of the County Board of Supervisors elected from cities of the first, second and third classes hold office for two years and that an election is not necessary this spring. The decision has been challenged and the state officers are now at work on an official opinion that will be given out in a few days and may make election mandatory. It is claimed by the authorities at issue with the attorney general that supervisors are county officials exclusively and not officials of the city as was held by that opinion. The law provides that in cities of the first, second and third classes elections shall be held biennially for municipal officers. The difference of opinion relative to the election of supervisors hinges on the question of whether they are city or county officers; if the former then an election this spring is not required but if the latter the office must be supplied.

Same in Janesville.
The same question confronts Janesville, only with this difference, the Madison charter does not name the supervisors as among the members of the municipal government. The charter of the city of Janesville says: "The municipal government of said city shall consist of a common council composed of the mayor and two aldermen from each ward. The other officers of the corporation shall be a clerk, treasurer, city attorney, two school commissioners at large, two justices of the peace, sealer of weights and measures and one constable, supervisor and school commissioner from each ward, a street commissioner and city marshal."

Every Two Years.
From the foregoing it would seem that there was no necessity of electing a supervisor oftener than once in two years, yet they are elected every spring under the idea that they are not municipal but county officers. The opinion of Rufus B. Smith, the city attorney at Madison, is that supervisors are county officers and not municipal officers and must be elected each year.

Burpee's Opinion.
City Attorney Burpee stated that he had looked over Mr. Smith's opinion but had not looked the matter up as regarding the law. His opinion off-hand was that the supervisors while named in our charter were not city but county officers, they are elected by the city, but their functions are outside the city government. The opinion of Rufus B. Smith is given largely on the Madison charter which is different than ours. He had not looked up the law but thought the safe way was to hold an election of supervisors this spring.

Jackson's Opinion.
District Attorney Jackson had seen the opinion of Mr. Smith but was not prepared to make any statement as he had not come to any decision in the matter. The state officials are now working on the question and will probably hand down an opinion in a few days governing the election.

SUPT. BUELL FAILS TO GET TO NEWARK

Was to Have Addressed Farmers Institute But Got Stranded in Beloit.

There was a Rock County Farmers' Institute in session in the town of Newark yesterday and today and Supt. H. C. Buell was scheduled to give the principal address on last evening's program. His subject was "The Training of Young Men" and it was no fault of his that the address was not given.

According to the arrangements made Supt. Buell was to go to Beloit yesterday afternoon on the Interurban. At Beloit he was to be met and driven overland to the place of holding the institute. In spite of the fact that a twelve-mile ride through mud and storm did not look especially attractive, Supt. Buell kept his part of the contract.

Yesterday afternoon he went to Beloit but no one was at the station to meet him. Thinking there might have been a misunderstanding, he telephoned to the railway waiting rooms but could find no trace of any one who was looking for him. After spending two hours in fruitless waiting, Supt. Buell returned home. People at Newark doubtless wondered why the principal speaker of the evening did not appear and Supt. Buell has yet to learn what became of the man who was to meet him at Beloit.

FORECASTS DECISION OF ANTHRACITE BOARD

Belief Prevails That Miners Will Get an Increase of 10 Per Cent, Pay to Be by Weight.

New York, March 6.—A dispatch from Washington gives the following forecast of the decision of the coal strike commission appointed by President Roosevelt.

There will undoubtedly be at least a 10 per cent advance in the pay for miners, to take effect from the time the miners returned to work last October. The per diem employees will not have their wages increased, but will be recommended for the same pay for a day of nine hours.

The system of pay will be regulated, wherever practicable, the operators will be required to pay by weight, instead of by the car, and elsewhere by the lineal yard. The miners will have check docking representatives at their expense. This will practically amount to a second increase in wages.

There will be indirect recognition of the union, which will come when the findings are submitted by President Roosevelt to John Mitchell as president of the miners' union.

The boycott will be condemned, and the principle will be laid down that a miner has a right to work without molestation, even though he does not belong to the union.

The terms of the verdict are to hold for three years...

MAN AND WOMAN DIE FROM ASPHYXIATION

Civil War Veteran Had Gone to Denver to Care for Widow of Late Friend.

Denver, Colo., March 6.—Mrs. George Stanley, a granddaughter of Lord Kerenstone of Inverness, Scotland, was found unconscious in her apartments in this city. In the same room was the dead body of Maj. Marshall Hurd, a civil war veteran, 72 years of age. His death and her unconsciousness were apparently caused by coal gas, which filled the room from a defective stovepipe, although there are suspicions of a more serious tragedy.

Mrs. Stanley died without recovering consciousness.

Mrs. Stanley was apparently 45 or 50 years old, and was for years a cripple. Her mother was Lady Allen and her father governor of an English province in India. Lady Allen by a second marriage became the mother of Sir James Grant of Toronto, one of the most eminent physicians of the dominion of Canada, who was knighted by Queen Victoria.

Mrs. Stanley, it is said, was thrice married. Her first husband and their four children died of the black diphtheria in Quebec. Several years later she married a resident of Washington, D. C. A year or so later he shot and killed himself in a hotel at Syracuse, N. Y. She then married Herbert Stanley, who died a year ago, leaving her penniless and helpless on account of ill health.

PIONEER RESIDENT HAS PASSED AWAY

Mrs. Elizabeth Clough Died This Morning After a Severe Attack of Pneumonia.

At an early hour this morning, death claimed Mrs. Elizabeth Clough, beloved wife of James Clough, who passed away at her home, 220 Gold street, as the result of a severe attack of pneumonia.

Deceased was sixty years of age and was one of the pioneers of this city, having resided here fifty-four years. She was born in Newberg, Orange county, N. Y., February 9, 1843, coming to Janesville with her parents, Mr. and Mrs. William Grant, in 1849, when she was only six years old. She has made this city her home ever since, winning the affection of a large circle of friends.

Besides her husband, deceased leaves one son, John Clough, one brother, John Grant, and one sister, Mrs. E. P. Sheffield, all of this city. Funeral services will be held from the home Sunday afternoon at 2 o'clock.

ANNIVERSARY WAS HAPPILY OBSERVED

Members of Laurel Lodge No. 2 Degree of Honor and Their Families Spent Enjoyable Evening.

In honor of the fourth anniversary of the organization of Laurel Lodge No. 2, Degree of Honor, there was a happy gathering at East Side Odd Fellows' hall, last evening. The regular business meeting of the lodge was held first, six new members were initiated and several applications were received. The lodge starts out on its fifth year under the most favorable conditions. Prosperity smiles on the order and 121 members are engaged in making it one of the most successful lodges in the city.

After the lodge meeting, the anniversary celebration was enjoyed by the members and their families. About two hundred were present and the evening was one of pure pleasure. An elegant supper was served in the dining hall after which the company played progressive clinch.

The winners were Miss Hattie Tanager and Edward Marshall who won the first honors, while the consolation prizes were awarded to Miss Martha Heller and Charles Boyce. The celebration was a happy one and the committee to whom its success was due included Mesdames Mary Tanager, Rose Bowen, Hannah Marshall, Nellie Ohlweiler, Agnes McCue, Anna Lagermann and Maggie Cook.

ILLINOIS MINeworkERS MAY STRIKE MARCH 31

Operators Refuse to Grant Increases in Northern Field and Wilmington District.

Springfield, Ill., March 6.—At the joint conference of miners and operators the operators refused to grant an increase of 10 cents in the northern field and 3 cents in the Wilmington district. The miners announced that if the advance was not granted the whole state would strike when the present agreement expired March 31.

The northern field has been the stumbling block on the joint scale committee for some time and the matter was thoroughly thrashed out in the joint convention. Secretary W. D. Ryan of the miners of Illinois spoke for an increase and in closing his remarks said he would not compel the men to resume work if they did not so desire.

Northern Illinois operators said that they were unable to sell coal on the Chicago market owing to discrimination in freight rates, which charge was ridiculed by the miners. Shortly before adjournment the operators voted down a motion for an increase in both fields. The matter will be further discussed.

A. R. Luck of Fond du Lac, Ill., died of the grip. An epidemic of grip is prevalent in the city, and the factories report a shortage of men who have been obliged to lay off on account of sickness.

SOCIALISM THE ONLY REMEDY

THAT IS WHAT THOMPSON SAID LAST NIGHT.

MEETING AT FORESTERS' HALL

Rev. Carl D. Thompson Speaks a Second Time on Social Democracy.

It was an agreeable surprise to those who attended the socialist meeting at Forester's hall last evening to find the Rev. Wm. H. Gaylord, one of the speakers. His address at the union convention on Wednesday evening was so satisfactory that a second hearing was welcome. During Thursday he made a hurried trip to Beloit and returned in time for the evening meeting.

Rev. Gaylord's message was brief. He reviewed the progress that has been made in this city. With the exception of two wards the city is now organized and meetings are being regularly held. As state organizer, he promised the social democrats present that they would be well cared for by the central committee. Franklin H. Wentworth of Chicago, a well-known and powerful speaker is to be assigned to this city immediately preceding the spring election.

Before closing his remarks Mr. Gaylord referred to the welcome which the socialists give to women in their meetings. Women are given equal ballot power in the gatherings with the men. As soon as the party gains the power to affect it, women will be given the franchise. These remarks were freely applauded and must have been pleasing to the women who were in attendance at the meeting.

Opposition Being Made

Rev. Carl D. Thompson was the principal speaker. After briefly reviewing the principles of socialism as laid down by him in this city a month ago, he referred to the opposition brought by the enemy against the party. He regarded as extremely encouraging the efforts which are being made by the church, capitalists and college professors to combat the doctrines. It shows that the party is beginning to draw the fire of the enemy. If ever we can get the opponents of socialism out in the open, it is all off with them, he said.

After refuting the current superstition that socialists are advocating free love, the speaker took up the evil of the existing social and economic system. He told of the growing number of factories that employ women because such a system is cheaper than the hiring of men. Child labor is growing apace. Girls are employed at such low wages that they are forced to a life of shame in order to support themselves. Mr. Thompson spoke with a great degree of plainness, and his remarks were heartily received. It is against all of these abnormal and unjust conditions that the socialist party is directing its efforts.

Socialism and Religion

Religion is no essential part of socialism, said Mr. Thompson. A Madison professor not long ago wrote an article denouncing all socialists as atheists. That accusation is false. Christians, Buddhists, members of Ingersoll's church and Hottentots are received without hesitation into the party. Men of all beliefs are as welcome in the social democratic party as in the republican or democratic party. Personally the lecturer expressed himself as heartily in sympathy with the teachings of Jesus Christ but there are those of all religious views and of none in the party.

In regard to the wealth of the country now, Mr. Thompson said that the party concedes the statements made by political leaders. But the wealth is the wealth of the trusts and not of the average citizen. With granaries bursting with their load of golden grain, people are starving in the shadow of these very buildings.

Have No Job

The problem of the unemployed is threatening the commonwealth of ours, said he. There is a vast army of men who are now out of work. Those who have positions now are not certain of holding their places. The tendency toward concentration, the combination of great manufacturing concerns makes no man safe under the present social system.

Conflict between the forces which depresses wages and inflates the cost of living is inevitable. According to governmental statistics, said Mr. Thompson, the workingman is now being robbed of five-sixths of what he earns. Evidence of the impending struggle is given, he said, by the recent action of the legislators at Washington in doubling the armed force of the land and giving the control of these forces to the central government instead of to the governors of the state. Mr. Thompson regarded this as proof that the capitalists who are behind the government already foresee the coming combat.

Governmental Ownership

Private ownership and monopoly was diagnosed as the evil at the root of the existing trouble in this land. The cure is the platform of the social democratic party. Mr. Thompson predicted that the day when that party should gain power is not so far distant as the capitalist class would have the people to believe. His forts have been made to bury the movement, but it is coming to life in Denver, New Orleans, and all through the land. Populists are being merged in the socialist party among the other converts.

Class struggle is not the solution of the problem. Shorter hours, larger pay are not aims to be put before people, but government ownership. The strike and the boycott are feeble weapons. One capitalist can equal 10,000 laborers. An economic battle is futile. On the political field one laboring man is the exact equal in ballot power of J. Pierpont Morgan. Socialists are now directing their efforts toward the enlistment of laboring men as they are the mass of population and have the controlling vote.

HIGH SCHOOL MEET FOR YOUNG LADIES

Members of the Basket Ball Teams Talk of a Very Private Indoor Meet.

An indoor meet for the young ladies of the high school is one of the possibilities of the coming weeks. If the plans should be perfected, as the would-be participants devoutly hope they will be, the contest would be a strictly private affair, the rude public being debarred from entrance.

Stories of a similar meet which was very successfully held several years ago suggested the idea to the present young ladies of the school who are athletically inclined. From the time that it was first talked of, several weeks ago, the members of the girls basket ball teams have availed themselves of every opportunity to acquaint themselves with the apparatus which would be used for such a meet, and to try their strength in dashes and longer runs.

When the subject was broached to Coach Norris he expressed his approval of such a meet, in case the girls should still desire it at the end of the basket ball season. Yesterday they were asked to choose between continuing basket ball and beginning practice for an indoor meet. When put to a vote a unanimous ballot was cast in favor of doing both. How Mr. Norris will meet the situation is problematical.

CIGAR MAKERS GET ONE DOLLAR RAISE

Employees of the Stern Factory Given an Increase This Week—Wants To Keep Men.

Cigar makers in the Twilight Club factory are rejoicing over an increase voluntarily granted them this week by J. Stern of one dollar per thousand. The prices paid in that shop are now two dollars above union scale. When Mr. Stern announced the new scale he told the half dozen men whom he employs that he regarded them as very efficient cigar makers and was anxious that he might not lose them. He willingly granted them an increase if that would induce them to stick by him, and assure him that he would stand in no danger of losing his workmen.

RETURN GAME WITH MILTON MARCH 17

Manager of Collegians Writes to the Y. M. C. A. Director for One More Match.

Manager Maxson of the Milton college basket ball team wishes the Y. M. C. A. to go to Milton on Tuesday, March 17. Athletic Director Mack has received a communication from him to that effect. The collegians were soundly drubbed in a game played here some weeks ago and they are eager for an opportunity to retrieve their fortune. A return game was scheduled for a date soon after the first contest, but was cancelled owing to a series of meetings which were in progress at Milton and with which the collegians did not interfere. The date which has been suggested will probably be agreed upon.

ANOTHER GRANGE IS REORGANIZED

Ansel Holway Is Keeping Busy Among Patrons of Husbandry in This Country.

Ansel Holway, national deputy of the Patrons of Husbandry, is accomplishing great results in reviving disorganized and dormant granges. The last addition in this county is at Magnolia. On Tuesday evening the old Magnolia grange was re-organized, with a charter list of thirty-seven members, and prospects bright for further augmentation. Warren G. Andrew was chosen master, and Bert Townsend secretary. Mr. Holway has only been in the county for about three weeks, his home being in Maine, and in that time he has re-organized an average of one grange a week.

Janesville Daily Gazette, Friday, Mar. 6, 1893.—Mr. J. L. Darling has removed his stock of music and musical instruments from opposite the Central bank to No. 2, Myers block. He has now a fine location, and the store is neatly fitted up. On his shelves can always be found the latest sheet music; also a variety of the different musical instruments which he proposes to sell at the lowest cash prices.

The lecturer before the Union club tonight is Thurlow Weed Brown. Many of our citizens have heard him speak on the temperance and political topics, and they will need no endorsement of his talents and popularity as a public speaker. To those who have not heard him, it may be proper to say he is a man of rare abilities, a pleasing speaker and will deliver a lecture well worth listening to.

TOBACCO MEN ARE ENCOURAGED

PROF. HENRY WRITES ON WISCONSIN'S WEED PROSPECTS.

HE IS READY TO CO-OPERATE

Will Do All He Can to Better Conditions, If Given Appropriation Asked For.

Madison, Wis., March 2, 1933.—Dear Sir: Replying to our conversation in regard to the possibility of our experiment station advancing the tobacco interests of our state, would say that such an effort would be in line with similar undertakings in other states. For many years past the states of Connecticut and Pennsylvania have made special appropriations to their experiment stations for tobacco investigations. The Connecticut station has done great good to its people in its instructions on the use of fertilizers, and it was that station that brought out the advantages of growing tobacco under shed. The Connecticut station has paid back to the farmer tobacco growers ten dollars for every one given the station for these investigations. In Illinois the agricultural college receives each year \$10,000 to be used solely in a study of Indian corn. They are likewise receiving \$10,000 for a study of the soil of Illinois, and many other heavy appropriations amounting in all to over \$100,000 a year. The farmers of Illinois express themselves as well satisfied with these expenditures and are asking that the agricultural college receive more money from the legislature this year than it has ever been given in the past. The improvement of corn in Illinois because of the \$10,000 appropriation has been almost beyond belief. Everywhere farmers are taking an interest and studying seed corn in a way never before dreamed of. Every great line of manufacture employs experts specially trained for the business. Manufacturers realize that a small saving here and there in their business aggregates enormous results. In growing something like four million dollars worth of tobacco annually in this state, it is not impossible to easily save from ten to twenty per cent, either in the cost of production or in making the crop that much better. This true, there would be a saving or gain of from four hundred to eight hundred thousand dollars to our farmers. Taking the one question of a higher grade of tobacco through the use of better seed, we all know that there are varieties of potatoes which will yield many bushels more per acre than other varieties; that some varieties are a much higher quality than others, and that it is possible to get large yields and high quality combined. Now, as a buyer of tobacco, knows that there is a great difference in the quality of the leaf produced on different farms resulting not only from a difference in soil and cultivation but also because of a better variety or strain of seed being used in some cases than others. Now, why is it not the part of wisdom to set some person or persons to working on the definite proposition of getting the very best tobacco seed for Wisconsin that money and brains will secure. Then, having gotten a seed representing a high grade of tobacco, have this widely distributed so that every producer could get immediate value from such action. It will be seen that the appropriation, asked sinks into insignificance compared with the returns offered. The appropriation asked covers two years. There are 175,000 farms in the state. If the farmers alone had to pay this tax, it would be less than three cents apiece, but the cities and villages will have to pay about half of it. I am sure the legislature will grant this appropriation. If the farming people of the state are in earnest that it be granted. If the money is given to the station, I will assure you that we will use it wisely and economically to the very best of our ability. Whether we can give value received or not time only will tell. The people of the state know of the college and its work. They know of what it has done for dairying, for live stock and several other interests. If they wish us to undertake these studies and investigations, we will do so, provided they secure for us the means and work to that end the same as have the other industries we are serving. Yours truly, (Signed) W. L. HENRY, Director.

TONIGHT'S GAME WILL END SEASON

Beloit High School Basket Ball Team Will Play at the High Gym.

The high school basket ball season will close this evening. At the high school gym tonight the Beloit high school five and the locals will try conclusions for the first time this season. For the third time this year the girls' team and the alumni team will meet. The score now stands a tie, and undergraduates having taken the first match and the alumni the last, one week ago.

Next week the high school men will take up track work in the place of basket ball. At some time before vacation an indoor meet is to be held, and all efforts will be directed toward that. No practice has been held since the track team went to Beloit, but the athletes have all kept up their training through the medium of basket ball work.

A CARD.

We, the undersigned, do hereby agree to, refund the money on a 50-cent bottle of Green's warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

MEDICOS ARE TO MEET TONIGHT

Caledonian Rooms To Be Scene of the Monthly Gathering of Doctors of the County.

In the Caledonian rooms this evening will be held the March meeting of the Rock County Medical association. Members of the medical fraternity from neighboring cities are expected to be in attendance as well as a large proportion of Janesville's physicians. The program has been divided into two main topics, Pernicious Anemia, and Leucemia. A paper will be presented on each of these and two doctors have been appointed to lead the discussion on each. Special emphasis will be laid on a free-for-all discussion among the members present. Dr. F. B. Farnsworth will lead the meeting. The speakers are Drs. E. C. Helm, W. D. Cook, and D. R. Connell of Beloit, A. H. Barker of Roscoe, Q. O. Sutherland and J. F. Pember of Janesville.

NEW ENTRANCE IS PLANNED

Manager Myers Will Remodel the Front of His Play House.

Manager P. L. Myers of the Grand opera house is planning to completely remodel the entrance of the playhouse this summer. When the present season has come to an end the improvements will begin, and the opening of the season of 1933-34 will see, it is said, an unusually handsome lobby and entrance.

Aside from the artistic value of a more pretentious entrance, the change is expected to add materially to the comfort of the patrons of the theater on cold evenings. No adequate heating system in the entrance and the present loose doors freely admit the chilly blasts.

Plans for the improvement have been definitely mapped out. The present doors are to be torn out as well as the balcony above them. The steps will be removed, and the entrance floor reduced to the level of the sidewalk, with only a single connecting step to equalize the slant of the walk. The short flight of stairs will be removed to a point about eight feet within the street's doors. A 25-foot steam radiator will combat the breezes from a point of advantage just within the doors. A cork floor will deaden the steps of late arrivals.

Street doors of heavy double plate glass, and a balcony of unique design suspended above the doors by heavy chains, will add to the effect of the entrance. The interior walls of the entrance will be redecorated, and the alterations extend as far as the inner doors of the theater. Cullen brothers are to do the work.

FINDS CARTRIDGE IN A COAL HOD

Charles Johnson Just Misses Putting Dangerous Instrument into His Stove.

Charles E. Johnson of Mineral Point avenue is congratulating himself that he did not empty all the coal in the scuttle into the stove when he filled it Sunday night. He put part of the coal into the stove one time and when he started to put in the balance he noticed a piece of wire sticking out of what remained. He pulled the wire out of the coal and was surprised to find it attached to a dynamite cap and a piece of cartridge about two inches long. At the time of finding the cartridge and fuse he did not realize what would happen to his stove and house had they gone in with the coal and been touched off by the fire, on account of not being acquainted with the explosive piece of dynamite. He kept the stuff in the house until Thursday morning and while burning some papers and rubbish in the back yard concluded he would see if it would go off.

Accordingly he threw the cartridge and fuse into the fire and stopped out of the way. In a short time his curiosity was satisfied by an explosion that blew the burning paper and rubbish all over the neighborhood. He realized then that if he had not discovered the fuse and cartridge he would have been wondering what blew up his stove and house and possibly injured some of the family.

TO THE POINT

Last January the Municipal League sent a communication to the common council asking the council to publish a list of all orders drawn on the city treasurer on account of the new city hall up to date; and, also a list of all orders drawn relating to the city stone crusher during the year, 1932. The council appointed a committee to attend to the matter, who engaged a man to assist the city clerk in preparing the statements. The statements were duly prepared by the clerk and his assistant and have been lying in the clerk's office ready for the printer for the last five weeks or more, but so far the committee has not seen fit to permit them to be published.

The people would like to see those statements, and if the council or the committee appointed have any good reason for not publishing them, it should be made known.

MAD DOG SCARE IN FIRST WARD

Frightened Children and Bit Several Other Dogs Before He Was Killed.

A setter dog belonging to J. W. Echlin, and supposed to be suffering from hydrophobia, caused quite a scare in the First ward yesterday afternoon and is said to have bitten several dogs before he was finally killed by Officers Brown and Fanning, who had been called to shoot him.

The dog was up near the Washington school and his peculiar actions frightened the children. Some of them spoke to Rev. Vaughan about it and he spoke to C. C. McLean who happened to be passing in his buggy. Mr. McLean went on a hunt for the animal and soon located him. He succeeded in driving him home, but not before he had bitten one dog and snapped at several others. Mr. Echlin said that he knew that the dog had bitten several other dogs but did not realize that he was made or he would have killed him at once. Mr. McLean feels satisfied that the dog was mad as he showed every symptom of being afflicted with the rabies. The dogs that happened to be in his path appeared to be deathly afraid of him and lost no time in getting away.

People in the First ward, residing in the neighborhood of Mr. Echlin's, if they have a dog should keep close watch of it and see that it does not come down with the disease. A dog afflicted with the rabies will show it a day or two ahead of the snapping period by refusing to eat and drink, keeping out of the way, hiding under some porch or building and acting as if they were afraid of mankind.

SURPRISE PARTY AT HOSKINS HOME

Card Playing Helped the Evening To Pass Only Too Quickly

The home of Mr. and Mrs. Warren Hoskins, on the river road, north of the city, was invaded last evening by a number of their friends and a very enjoyable evening was spent by the party. The prizes in the card games were won by Mrs. W. G. Winkler and Dr. George H. Webster, first, and Mrs. George H. Palmer and W. G. Winkler, consolation. At the close of the card games an excellent luncheon was served to the guests.

DESCRIBES LIFE ON BOARD SHIP

MRS. SUSIE HIBBARD WRITES INTERESTING LETTERS

FROM SUNNY LAND OF JAPAN

Readers of The Gazette May Follow the Janesville Girl in Her New Life.

Letters written home from Japan by Mrs. Susie Hibbard have proved so interesting to the friends who have been privileged to read them that the Gazette is pleased to be able to give extracts from these letters for the benefit of its readers. The letters from which the extracts are made were not written for publication but Mrs. Hibbard's parents, Mr. and Mrs. E. W. Lowell, have kindly consented to allow them to be used in the Gazette.

The series of articles, which begins in this issue, will give Mrs. Hibbard's impressions of her new life, beginning with the sea voyage from Seattle to Japan. The first letter was written on board the steamship Iyo Maru and contains an amusing account of life on shipboard. It takes three weeks for a letter to reach Janesville from Tokyo where Mr. and Mrs. Lisle Hibbard are stationed. Concerning the ocean journey Mrs. Hibbard wrote on November 5:

A Royal Voyage
"This northern route is much more stormy and cold than via San Francisco. Some of those days when the winds blew straight down from Alaska and the Behring sea we nearly froze. Sweater, coat, flannels, and steamer rug were not sufficient. Add to this waves high enough to wash over the roof over our heads and you have the ultimatum of our misery."

Was Seaside
"I lived on hope for two weeks, not being able to keep anything else on my stomach; the climax came with a chill, a big dose of brandy and a doctor and now I am happy again and hungry! I just ache inside before meal time comes, my appetite presses so against my back bone. Since I have been able I have gotten up at six-thirty every morning for a nice salt water bath. Before that, however, a Japanese woman knocks at the door, brings us coffee (how it makes me long for some of yours at home) toast and fruit."

Bath and Breakfast
"Then a Japanese boy comes, bows and grunts something about 'water ready.' Lisle ceremoniously answers his bow, we wrap up in our blankets and are off for hot soft water baths, with a rinsing in fresh. Then we have two whole hours before breakfast, usually spent by me in putting my clothes on piecemeal, getting out on deck and being most awfully sick. At eight o'clock a big strapping Jap—as Japs go—comes down to deck beating a Chinese gong loudly enough to awaken the roosters down in the hold. That's only a warning for the real thing comes at eight thirty. I can't tell you so very much about the meals for they haven't interested me much. On rough days the dishes are all fenced in and the fences strapped down. The meats are very good. Let a merciful silence cover the milk and eggs."

Pleased With Japanese
"Our Japanese friends at table have proved very interesting and gallant. They ask many questions about the American dishes set before us. Today I had to explain the mysteries of Welsh rabbit to Mr. Sasamori. You must know the Japanese way of eating oranges for it's worth while. Without peeling they cut the orange lengthwise into eight parts, then at the ends of each piece separate the skin and the orange. They use these ends of peeling as a handle and eat the fruit as a daisy would watermelon. It is really a very dainty way to do."

The Japanese we have met are very polite, well-mannered and dainty at the table. They always wait until every one is through and then get up together. The purser said this morning that it is their custom not to talk at the table, quite contrary to American ways he said and laughed.

Life at Sea
"Shipboard is a lazy life. Chess, halma, reading, music, games on deck whenever you please but most of us poor mortals have been only too glad to lean our heads wearily against a steamer chair back and wonder when we will ever run into Japan. And so the days have worn on. Breakfast at 8:30, dinner at 12:30, lunch at 3:30, supper, 6:30. At noon every day on going down to dinner is a bulletin of the distance traveled that day, the remaining distance, latitude, longitude, temperature of water. We are traveling about 300 miles a day. Some days the sea and waves have been so high that we have made only 150 miles. Those were the days when the wind blew the flag staff away and smashed in the vegetable chest on lower deck."

Sunday Services
"Sundays are a pleasant change here. At ten there is service in the dining room. You can't imagine how impressive these services have been, even with the tossing of the ship to contend with. Last Sunday I went to church lying down—not an unusual thing here in the land of seasickness. We sang the same good old songs we sang in America, the Japanese, Scandinavians and Germans uniting with the Americans and the same Bible for all. The first Sunday Mr. Patton, of Princeton, preached and last Sunday a Mr. Smith from Canada. A mixed quartet gave some good music and Lisle passed the soup plate for a contribution to Japanese needy sailors."

Two Deaths at Sea
"Now I want to tell you about the steerage passengers. The steerage is a filthy place down in the hold where all the Chinese live. When the wind is just right we get an occasional reminder of the fact. The

A Layman's Lenten Sermon

Ninth day of Lent: Matthew xvi.—"The Pharisees also with the Sadducees came, and tempting desired him that he shew unto them a sign from heaven."

And they came unto him and tempted him to show to them a sign of his great power and that of a truth he was the son of God. How many of us do likewise? We are ever doubtful until all is made clear to us by some sign so evident that we cannot fail to understand its meaning. We must be shown some sign so evident and so palpable that we can have no

doubt as to its being genuine before we believe all. Take it in our every day life we do not invest our money, our sole capital, in some scheme unless we can see results according to us. We are skeptical in the extreme and want everything made perfectly clear to us before we give it our approbation.

The Pharisees and Sadducees were the doubters of their age. They were the scoffers and scorers of the teachings of Christ. As they existed then so they exist today and we find them in every walk of life scoff-

ing all things that they cannot understand nor their shallow brains comprehend. They want some great sign. Some token so self apparent that their dull intellects can comprehend it before they give their confidence. Since Christ first came upon this earth to teach and show the world a better and purer life they have existed as they did before. Lent is the time to search them out and convince them that their ideas are wrong and that true salvation lies not money and that pomps and vanities of this world but in the word of Christ and in following his teachings.

New York Stock Markrt.

New York, March 6.—The stock market is chiefly influenced by two considerations just now, the money market and absenteeism.

Many of the big operators and a host of the smaller ones are taking advantage of circumstances to enjoy a winter holiday, thus establishing a habit that is becoming universal amongst American business men who carry large responsibilities and cannot otherwise obtain a resting spell which the strenuous pace of American business methods imposes. This, of course, has its advantages and is not to be disparaged; but it also has its counter effects, and one of these is the creation of a dull spell during the last month of winter with the consequent delay of many negotiations and plans requiring close personal interchange. Later on these absentees return, refreshed by renewed vigor, negotiations will be resumed and the stock market should take on its wonted activity, especially under the usually stimulating influences of approaching spring. So the inactivity of the past week is likely to continue, and need not be unfavorably construed.

As to the money market, the situation is not entirely satisfactory. In these days the necessity for a conservative policy on the part of those controlling the credit situation has been repeatedly urged. Last Saturday the loans of the Associated Banks rose to \$350,000,000, the highest figure on record by \$12,000,000, while the surplus reserve fell to \$9,000,000, which is much below the average usual at this season. It is very plain, therefore, that some careful plotting

will be necessary until the demands of the next harvest are satisfied, to avoid difficulties in the money market. As already pointed out, preparations for trust company reserves and the Panama Canal payments are likely to make a considerable drain upon bank resources. At the same time the Treasury continues to absorb funds; government deposits in the banks are already sufficiently heavy to be an element of important uncertainty, and the treasury, having exhausted its relief resources, will not be able to afford the assistance next autumn that it rendered last year. The Aldrich bill will provide a considerable relief, and though not a curative measure by any means should be passed by congress without delay, if only to counteract the ill effect of government operations in the money market. Since there is little or no prospect of obtaining a sound bank currency law during this session of congress, it is all the more important that the Aldrich bill should be adopted as a precautionary measure. Legitimate requirements for money are likely to be very heavy during the remainder of the year, and corporation or syndicate borrowing has been on too large a scale to allow on any "booming" stock speculation on top of present prices. The monetary situation would undoubtedly be improved by a gradual liquidation in stocks; although a downward movement of any sharpness would meet with strong resistance by those who control the market, and who still have large holdings with which they are ready to part on a higher level of prices. A vigorous downward movement would also be discouraged by the strong banking interests

who have now contemplated issues, of which considerable may be expected during the next year or two if our railroads are to keep pace with the pressure of traffic which the growth of the country is imposing upon them. Nevertheless, as already said, the money market is going to be the controlling factor for some time to come, especially until after the April settlements, when a period of temporary relief may be anticipated.

General business continues active. Liberal increases in railroad earnings, following the phenomenal gains of the past four years, emphatically testify to this. The only complaint heard is the increased cost of doing business and the consequent diminution of profits. This complaint is general, not only among individuals, but is shown in the current reports of industrial and railroads. An event of much business significance is the estimate of the iron ore producers of an output this year of 34 million tons, an increase of 5 million tons over last year, and an agreement to advance the prices of ore. There is an immense amount of new iron tonnage in sight, and whether this advance will check the demand or not remains to be seen. With the urgent requirements of the railroads to be met, it seems very probable that the iron "boom" may last another year, surpassing the dreams of the wildest enthusiast in its duration.

Speculation promises to run in moderate lines for some time to come. Until the absentees return and the April settlements have been safely passed, no upward movement in stocks can be safely counted upon, and meanwhile we are much more likely to witness a downward drift.

CAUCUS CALL WAS WRONGLY ISSUED

State Organizer Gaylord Corrects an Error Made by the Socialist County Committee.

At the close of the socialist lecture at Forester's hall last evening a special session was held of members of the party and of those who wished to join the ranks. A number of new members were registered by Secretary Joseph Wess of the city committee. There is no city chairman, the custom being to elect a presiding officer for each meeting.

Rev. Gaylord, state organizer of the party, addressed the meeting. He said that the county committee had erred in issuing the call for the caucus for the city, in preparation for the election, for March 13. The call should have been issued by the city committee. Another call will be issued soon.

All members of the party were urged to attend the meetings of the city central committee which are held every Sunday morning. Those who joined the party last evening renounced connection with or allegiance to any other party than the Social Democratic, and pledged payment of the dues of the party. The dues amount to ten cents a month. None of the meetings of the party are secret so as to prevent the attendance of any member of the party.

The GIDEONS.

Gideon's Big Ministers which are coming to the Myers Grand on Monday, March 9, do not pretend to be elevating the stage, they do not seek to teach any great moral, they disclaim all idea of holding their audience spell-bound after the fashion of the modern book drama, nor will they send cold chills down the back like some of the melodramas of today adopted from "penny dreadful" novels. All they try to do and do successfully is to furnish an evening of laughter and the pleasure which must always go with good, pure, clean and wholesome fun. Their comedians are funny, but the fun is honest and harmless. Their balladists sing the sweetest and latest coon songs. The music is rendered by the band and an orchestra is soul inspiring and a treat to those who love harmony.

The dancers cavort and have a good time just for the sake of the thing. Above all there is not a line or act in the entire entertainment that can possibly offend. The band will make a street parade at noon and give a free open air concert at 7 p. m.

FIND TOOLS IN AN OLD RANGE

This Recalls the Robbery of Lowell's Store Some Months Ago.

The tools stolen from the Knox & Daly shop at the time of the Lowell robbery were discovered yesterday hidden in the reservoir of a range that was stored on the second floor of the Norcross building. With the tools was an old hat which Mr. Daly wore when he was working about the shop. The only tool found at the time of the robbery was a chisel although several bits and other things were missing and no trace of them has ever been discovered up to yesterday, when they were found stored away in the reservoir.

ADVERTISEMENT BEGARS

From National Advertiser.

In the slums live many men and women who are termed "panhandlers." These stand on street corners or go from house to house begging food or money. The newspaper publishers find many "panhandlers" among advertisers as well as among those who do not advertise at all. The latter beg for "puffs," the former for free reading notices. While the practice is not so bad as in former years, there is now altogether too much of it. Professional men, who are non-advertisers, and society people, who never advertise, rush to the newspaper for free publicity, when anything occurs in which they figure prominently. These should be dismissed with short savor of grace. By no stretch of kindness may they be thought to have any claim upon the newspaper. If they are subscribers, they receive an equivalent in the papers they receive from day to day. If they do not get their money's worth, they should stop their paper. Advertisers bargain for a given space at a stated price, when they get this space, the contract is done. They have had all that should come to them, and when they ask for more, they are in the position of the shiftless "panhandlers" of the streets. They are beggars, true and simple.

The above statement of cold facts may seem a little abrupt and yet every word of it is true. Many people are possessed of the notion that because they subscribe for a paper they are entitled to a proprietary interest in it. The fine spun and nonsensical efforts of the medical profession excludes all paid notoriety, but when Dr. Jones is called to reduce a fracture, it is very gratifying to the doctor to see his name in type, and it may induce another fracture to come his way. The fine spun and nonsensical ethics of the medical profession excludes all paid notoriety, but when Dr. Jones is called to reduce a fracture, it is very gratifying to the doctor to see his name in type, and it may induce another fracture to come his way.

The fine spun and nonsensical ethics of the medical profession excludes all paid notoriety, but when Dr. Jones is called to reduce a fracture, it is very gratifying to the doctor to see his name in type, and it may induce another fracture to come his way.

This class of free advertising, and it is by no means confined to the medical profession, is the bane of all newspaper offices. Every line of type in a paper costs money to produce, and every inch of space represents good hard capital of the same variety that contributes to the success of all enterprises.

No self-respecting newspaper asks for patronage of any kind as a matter of charity. When it fails to give value received to either reader or advertiser it has no claim for support.

It is equipped to furnish the news of the day, and also to carry information to a large constituency, that is of benefit to the merchant and business man. As an advertising medium it comes close to the people and this fact is so generally appreciated by all enterprising business men that its columns are in active demand.

Janesville, like all other towns, has two classes of men who pose as merchants. One class represents the active energetic class, progressive in both spirit and method. They believe in publicity and spend money freely in making themselves and their business known. These men contribute to the prosperity of the city by drawing patronage from all parts of the country.

They also advertise the city by sending their announcements broadcast, wherever the paper has a circulation. A Janesville paper in California or New York is an index of the town. If the business interests are well represented the reader says at a glance "There's a wide awake city."

The other class, and it is numerous, live on the enterprise of their neighbors. They take the overflow that is attracted to the town by wide awake merchants, and never spend a dollar themselves by way of publicity. They ignore the fact that if the same spirit was dominant that there would not be a newspaper in the town, and that grass would grow in the streets in less than twelve months.

In these days of universal prosperity the men who are meeting with the largest degree of success, are the men who are full of enterprise and publicity. The man who has goods to sell realizes the importance of letting the public know it, and he turns to the newspaper as the best medium.

THE ASSEMBLY

The assembly has adopted a wide open policy, and all measures of doubtful character, are rushed

through without discussion, and apparently without much investigation. The senate appears to be recognized as the tribunal and responsibility in liberal measure is crowded upon the upper house. It is gratifying to know that a majority of senators possess both the disposition and ability to meet important issues fairly and that common sense and conservatism is in control.

The destiny of the state is involved in some questions now pending. It is not a time for hasty or impetuous action. It does not follow that because Minnesota has endorsed a primary law that Wisconsin is in duty bound to follow suit. And there's neither argument nor logic in the plea that the state is bound to follow in the wake of Iowa or Michigan on railroad taxation.

Wisconsin is an independent commonwealth noted for horse sense. The state is not given to theorizing nor spasmodic reform. It has a constitution that is distinctive and it enjoys an enviable reputation.

It is suffering just now from a spasm of so-called reform, largely induced by a reckless element tinged with free trade, free silver, personal liberty and a lot of theories that are as visionary as impractical.

What the state needs politically, more than anything else, is a democratic party, so organized as to command the respect and support of disciples of that faith. A Bryan democrat is a poor brother-in-law when found in the ranks of the republican party. He is so full of isms that he is ready to endorse any visionary scheme suggested. He possesses zeal without judgment and a ballot. Both are dangerous.

The assembly fails to recognize existing conditions, but the senate is alive to the situation. It is fortunate for the state that the senate is in control.

THE WOMEN'S REST ROOM

A movement has been inaugurated by some of the enterprising women of Janesville, to establish a rest room for women, similar to the one in Madison. The furniture of the old city hospital has been secured and the Reverend R. C. Denison will call a meeting of women, in the near future, to discuss location and methods. The plan contemplates a room comfortably furnished and equipped with reading material and conveniences for serving lunches. A macon is to be in charge and the room made so attractive that people from the country will find it a rest room in fact, as well as in name.

The Madison room is partially self-supporting, and the Forty Thousand Dollar club stand behind it, regarding it as a good investment from a business standpoint.

There is no reason why Janesville cannot support a room of this kind. The city is the center of an agricultural garden and the small amount of money necessary to entertain visitors from the country should be cheerfully furnished.

The city and country districts are coming in closer touch every day, and their interests are so closely allied that they are mutual. A well conducted rest room will be appreciated, and will add attractiveness to the city as a market. The city could afford to have a stock fair once a month. It should be not only the county seat, but the county resort as well. The rest room should be encouraged.

George R. Peck, general counsel for the Chicago, Milwaukee and St. Paul road, is being roundly denounced by administration organs, for defending the interests of his company. Mr. Peck will not be injured by these attacks, neither will his arguments be weakened.

W. H. Ferber, of New London, late democratic candidate for insurance commissioner, is out with a letter stating that in his opinion the democratic party has outlived its usefulness. The same opinion seems to prevail generally.

Congressman Cooper has accomplished good work for his constituency. The Janesville appropriation is increased to \$81,000 and the government building when completed will be a credit to the city.

The winter meeting of the Wisconsin Press association was noted for reminiscences. It was a semi-annual gathering, with many old time editors in attendance.

Milwaukee added to her fame as a hostess in entertaining the newspaper men this week. The city behind the brewery is all right.

The friends of Senator Stout have a right to be disappointed over his desertion from the conservative ranks of his party. Peace at any price, is not always desirable.

W. J. Bryan will lead a forlorn hope in 1904, unless his party complies with certain conditions of which "he is it."

The Milwaukee Journal has another guess coming. It is always easy to predict the weather after the storm.

Speaker Henderson retires from congress with an enviable record. He has been an intelligent legislator and a popular presiding officer.

PRESS COMMENT

Milwaukee Sentinel: The Wisconsin assembly has a way of doing its

work with a celerity and precision that suggests an automatic motive power.

Marion Advertiser: The state senators are playing football with the primary election bill. Oh! if they only could puncture the old gas bag what a saving to the state it would be.

WORK COMPLETED ON NEW LIBRARY

CARPENTERS AND PAINTERS FINISH THEIR LABORS.

TO MOVE BEFORE MAY FIRST

Lighting Fixtures Alone Remain To Be Put In—Board Hold Important Meeting.

By the first of May the present quarters of the public library in the Phoenix block will be vacated and the books, furniture and other property will be installed in the new building which is now practically completed. At the meeting of the library board held this week it was voted to notify Piny Norcross, owner of the Phoenix block, that all the library belongings would be out of his rooms by May first.

To Buy Light Fixtures
The board meeting was an interesting one although but little definite action was taken beyond the allowing of some bills. The time was devoted to the discussion of furnishing the building for moving into the new quarters. The question of light fixtures was discussed at length and the entire matter was finally left to a committee consisting of William Bladen, George C. L. Field and Michael Hayes. None of the members of the board are in favor of purchasing expensive chandeliers for the building.

Furniture and Shades
Judge C. L. Field asked more time for the rooms committee before making their report on the chairs and tables required. The other members of the committee, are Mrs. O. H. Fethers and Stanley B. Smith and they wished to hear from Miss Marvin of the state library commission, who is an authority on library furnishings before making any recommendations.

While the contract for furnishing the window shades for the building was let to Will Skelly some time ago, the color was not decided on and the selection was left to Mrs. A. P. Lovejoy and Miss Gertrude Cobb. The shades throughout the building will be olive green.

Artistic Decoration Finished
With the exception of the lighting fixtures, the new building is now ready for occupancy. The last finishing touches on the interior were made today when the painters and decorators finished their work. Willard Coleman has had a force of six men at work on the interior decoration since December, but today the last floor was oiled and the last polished shelf was put in place.

The interior of the building is all that one would expect from the artistic beauty of the exterior. The most faultless taste has been manifested in the selection of the various tints or the walls and the rooms are bright, cheerful and restful.

Beautiful Tints Chosen
On the main floor three different tints are used, the entrance vestibules being finished in dark red, the main library room in dull rose and the reading room and children's library in pea green. The two colors show in harmonious contrast through the archways and the effect is very pleasing.

Gilt decorations at the top of the columns add to the decorative effect. In Green and Cream

On the second floor, the walls of the art gallery, over the children's library are tinted pale olive green and the reference rooms which are finished off are in deep cream. The large room over the reading room and some of the reference rooms are still unplastered, owing to a lack of funds, and will be kept locked until the expense of finishing them can be met.

In The Basement
In the basement, the large room known as the club room, is finished in a very deep cream or canary color. The stack room is in pea green and the janitor's office and the other rooms are in cream.

The wood used on the interior is a very fine grade of quarter sawed oak and it has polished beautifully. The cork carpet has been laid throughout all the rooms on the main floor and in the hall and the finished rooms on the second floor. The stairs and the basement rooms are uncarpeted.

A Task to Move
Members of the library board will be greatly relieved when the work of moving is over. It is something of a task to move 16,000 volumes and get them in order in their new quarters and it will probably be some time after the transfer is made before the building will be open to the public.

Little Danger From Fire
It will also be a great relief to those most interested to know that the valuable books are practically safe from fire. In case of fire in the present quarters it would have been impossible to save the books and valuable volumes which could not be replaced would have been destroyed.

BIG MEETING FOR FARMERS

SEVENTEENTH ANNUAL CLOSING INSTITUTE AT MARSHFIELD.

HOW TO GET AN INSTITUTE

Instructions Given for 1903-1904—
Railroad Rates Granted to Marshfield.

For many weeks past farmers' institutes have been held in all parts of the state. Rock county has had its share, all uniformly successful. On March 17, 18 and 19 Marshfield will be the scene of the seventeenth annual closing Wisconsin Farmers' Institute and Mid-Winter Fair.

Superintendent George McKerron of Madison will be the conductor of the institute. Programs for the sessions have been sent out under the name of the university of Wisconsin. Every effort is being made to secure a large attendance. The railroads, by a circular issued about February 12, have granted an excursion rate of a fare and one-third for round trip tickets from all points in Wisconsin. Tickets will be sold on March 16-18, good to return and including March 20, 1903.

Many Good Addresses
A rich program has been arranged. Morning, afternoon and evening sessions will be held on every day except the last. On that day the afternoon meeting will be the last of the institute. At the two evening sessions musical programs will be introduced to liven the gatherings.

On the list of speakers are well known authorities from all parts of the state, although those in the counties nearest Marshfield are in the pre-dominance. The subjects are varied, embracing all branches of interest to the farmer, stock raiser, and dairyman.

Farmer's Institute Bulletin No. 1, besides Agricultural, Horticultural, Dairy and Experiment Station Reports will be distributed free between sessions of the institute, to all who attend.

For the Farmer's Wife
A Woman's Department is to be one of the features of the institute, as of the others that have been held in the state. Mrs. Helen Armstrong of Chicago, who has also appeared in this county, is one of the conductors of this department. Mrs. Jennie A. Jamison of Neenah and Mrs. Nellie Keelzie-Jones of Benet, Ky., will assist her.

One of the features of the sessions for women is an address on Invalid Diet and the Care of the Sick Room. A demonstration will illustrate the preparation of staple and nourishing food.

For Next Year
In connection with the program which has been sent out are instructions for securing a farmers' institute for next season. All who are interested in getting an institute for their localities should begin talking the matter up at once. A request for a blank petition should be sent to George McKerron, Supt., Madison. The petition should be filled out and returned before August 1, 1903.

Accompanying the blank petition will be sent a letter of instruction telling what is expected of towns to which institutes are granted, and explaining what part of the work is done by the institute management. All communications regarding institutes should be addressed to Mr. McKerron.

MEETING TONIGHT IS IMPORTANT

The Business Men's Association Has Interesting Questions Up To Be Decided.

There should be a full attendance at the meeting of the Business Men's association this evening at the assembly room in the city hall. It is an important matter that the association should not be allowed to die down on account of the good it has done so far and the good that it can do in the future.

The dues are but \$2 a year and the money is all used for the benefit of the city. Besides the election of officers for the ensuing year, the beet sugar question will come before the meeting this evening. Walter Helms will address the gathering and give an outline of the propositions he has from the sugar manufacturers. What they ask for is a factory site of twenty acres and contracts from the farmers to raise 4,000 acres of beets.

CINCH CLUB PLAYS CARDS FOR PRIZES

Members of the 13-3 Cinch Club Were Entertained by Mrs. John W. Boyes.

At the present home of Mrs. John W. Boyes, 105 Fifth avenue, the members of the 13-3 Cinch club held an unusually enjoyable session, yesterday afternoon. The ladies of this jolly club spent some time happily at the card tables, enjoying themselves heartily over the cards. Mrs. E. Heylman was the fortunate winner of the first prize, while the second prize was captured by Mrs. Lyman Morse.

After the conclusion of the card games and the awarding of the prizes, the hostess served a delicious luncheon. The spread was one of the most elaborate which the members of this club have enjoyed and reflected great credit on the culinary skill of the hostess.

IRVING REESE WAS DISCHARGED

BELOIT BOY CHARGED WITH LARCENY, FREED BY COURT

DISTRICT ATTORNEY'S MOTION

It Was Claimed He Had Stolen a Glass Jar and Six Hundred Dollars in Gold.

The case of the State of Wisconsin against Irving Reese a Beloit boy for the larceny of glass jar and \$600 in gold was called this morning in the municipal court and dismissed on motion of District Attorney Jackson.

The case had several curious features connected with it that are quite interesting. The defendant was arrested in Beloit last week on a complaint sworn out by Cornelius Buckley as attorney for Thomas Brannigan, executor of the estate of Della Clark, deceased. The complaint charges Reese with the larceny of one glass jar of the value of 25 cents and \$600 in gold, the property of Della Clark, deceased.

Waived Examination
Reese waived examination when brought before Justice Booth of Beloit and was held for trial today in the Municipal court under \$1,200 bonds. On the case was called this morning District Attorney Jackson asked that the case be dismissed for the following reasons:

The Reasons
"The failure of the state to prove the larceny or to establish the identity or ownership of the money claimed to have been found by the defendant."

Money Hidden
It seems that sometime after the death of Mrs. Clark, a story was circulated about Beloit that the deceased had a considerable sum of money secreted about her home and it had never been found. Shortly before Reese was arrested, it was claimed that two ladies who occupied a portion of the Clark house saw him coming out of the house with a glass jar which appeared to be filled with something heavy. They asked him what he had but he evaded answering them and went off with the jar.

Boys Articles
The next day Reese appeared with a motor cycle worth \$150, and as he was known not to have much money, the possession of the machine by him caused suspicion in the minds of the ladies and the matter was reported to Mr. Brannigan. He questioned Reese who told contradictory stories about how he got the money and Mr. Brannigan finally caused his arrest. He stated this morning that all the money he found was \$95 and that was in a sack on top of a beam in an outhouse and that there was nothing to show that it had ever belonged to Mrs. Clark or that the executor had any right to it. Reese, however, agreed to return the motor cycle and the man from whom it was bought will turn the money over to Mr. Brannigan so that the estate is really \$95 ahead.

The News From County Towns.

To Correspondents

Every day letters come from our correspondents throughout the county that cannot be used because the writer forgot the rules regarding communications. The following "don'ts" can be read by all of the correspondents and must be followed: Don't write on both sides of your paper. Don't fall to sign your letter. Letters signed "Don't" will not be published. Don't write on scraps of paper. Use a full sheet of paper and begin your letter two inches from the top. Place the name of the town at the head of the page. Spell it out carefully. Then two inches below again write the name of the town and date and on the same line continue your letter. Don't fail to have your letter mailed so it will reach the Gazette office Monday evening or Thursday evening. To do this you must know the time of your mail collection where you live. Don't forget that accidents, fires, marriages and crop reports are the best kind of news and if of sufficient importance may be enlarged upon. Don't state personal opinions. The editor of the Gazette does that. Don't write on soft paper with a hard pencil so that the writing is hard to read by lamplight. Don't forget if something startling happens in your neighborhood, murder, railway accident, big burglary or large fire, to notify the Gazette at once. We use that kind of news in our local columns. If mailed the letters should be marked Special in the corner of the envelope. The Gazette will furnish all supplies on application. GAZETTE PRINTING CO.

AFTON

Afton, March 5th.—The regular quarterly meeting of the Afton Anti-Horse Thief association was held at Brinkman's hall last Tuesday evening and was largely attended, only six members being absent. Three new applicants for membership were elected, they being Samuel Goss, August Nehls and A. L. Hayner. The association now numbers forty-one members and is in a flourishing condition.

The literary society will meet at the home of Mr. and Mrs. U. G. Walte, this evening for a study of Lowell. The cozy home of Mr. and Mrs. W. J. Nervous Prostration Followed.

Dr. Miles' Nerve Gave Back Health.

"I was laid up during the winter of 1915 with sciatic rheumatism and nervous prostration brought on by a severe attack of La Grippe. The rheumatic pains were so severe at times that it was impossible for me to turn in bed. I was unable to sleep. I had two of our best physicians in attendance, took all the advertised remedies for troubles of this kind but got no help whatever until I took Dr. Miles' Restorative Nerve Gave Back Health. When the pains of sciatic and rheumatism were most severe I secured almost immediate relief by the use of Dr. Miles' Anti-Pain Pills. I have recommended Dr. Miles' Remedies to many people."—Fred Myers, Redfield, S. D.

"I was taken with pain in my heart and under the left shoulder, with such heavy oppression feeling in my chest that I could hardly breathe. I had palpitation so bad and my heart would throb so that it would shake my whole bed. I also had a weak, all-gone feeling in the region of my heart. My doctor treated me for liver and stomach trouble but I failed to receive any benefit until a friend recommended Dr. Miles' Heart Cure and Restorative Nerve. I used both and one box of the Anti-Pain Pills. I believe I am completely and permanently cured."—Mrs. J. W. Golding, Noblesville, Ind.

NEWS OF THE COUNTY

(Continued From Page 6.)

the year 1884 and died at Footville, Feb. 28, 1903, aged 19 years. One sister, Miss Maggie Timmons, one uncle, John Timmons, of the town of Rock, also his uncle, Matthew Kennedy and family of Footville, with whom he has lived for the past two years, are the only near relatives left to cherish the memory of one who was a friend of all who knew him. The little "Judge" as he was familiarly known, won the respect and esteem of both young and old by his mild and gentlemanly disposition. Funeral services were held at St. Augustine church on Monday March 5, conducted by the Rev. Father Smith of Brodhead, the service was largely attended, the teachers and pupils of the high school of which he was a student, attended in a body. The floral offerings were contributed by them. The pall bearers were John Caary, Paul Mattice, George and Frank Gahagan. The interment by Mr. K. J. Bemis who is spending a few days at home is reported on the sick list.

Mr. and Mrs. Adin Ross have moved into the Ogdin house; Mr. and Mrs. McDaniels into the Dalton house; Mrs. Sina Schroeder into the Edith Townsend residence and Mr. and Mrs. Conway into their new home recently purchased of Mr. Wm. Acheson.

Mr. I. U. Fisher was a caller in town on Tuesday.

Rev. D. N. Wetzel is spending a few days with Richard Center friends, after which he will go to Ladysmith.

Mrs. Webb Owen and Clarence visited friends at Elroy part of last week.

Mrs. W. H. Cory gave a six o'clock tea on Friday evening.

Mr. Jacob Wiggins and several of his neighbors that live east of the village have bought separators and will ship their cream to Milwaukee.

Mr. and Mrs. E. H. Mattice visited friends in Janesville Tuesday and Wednesday.

Mr. and Mrs. Frank Owen entertained Mr. and Mrs. Palmer of Spring Valley and Mr. and Mrs. Louis Boynton of California on Tuesday.

The great praise which was due to Bro. Pepper and Snyder mentioned in the Orfordville Herald of the 26th inst., for the great interest they manifested in the series of revivals just closed at this place, would say of these, that they were a great inspiration to their pastor and their earnest christian spirit, their amiable disposition and their untiring efforts in bringing souls to Christ was brought about by the prayerful attitude into which they entered into their christian duties, much credit is also due to their early training under the Rev. B. C. Black and later in life the Rev. A. Wilbur Bloom.

MILTON

Milton, March 6.—The local telephone company is going to branch out considerably this spring. Lines will be built west and north of Milton Junction and south and east of Milton, adding fifty more phones to the exchange among the farmers.

Bert McAfee and Miss Mabel Clowry were united in marriage at the M. E. parsonage at Allen Grove, by Rev. T. Sharpe, Saturday, Feb. 28. The bride, the eldest daughter of Mr. and Mrs. James Clowry, May happily live with them.

Several from this vicinity attended the funeral of the late Robert Morton of Janesville, Saturday afternoon. The deceased was well known here, he spent the greater part of his life on his farm located between this place and Johnstown.

On Thursday evening, March 12, Miss Milna Mae Catter will give a recital at the M. E. church, assisted by the Milton college quartette. Program opens at 8 o'clock. Admission 25 and 15 cents. This will be a fine opportunity for Miss Catter's many friends to enjoy her readings, and also to listen to the high grade music which this quartette can furnish.

The Ladies' Industrial society served a most appetizing dinner at the church, Wednesday, which was well patronized.

The funeral of the late Mrs. Mary E. Johnson passed through this village from Lima to Darien, where the funeral services were conducted Thursday afternoon.

The patrons of the mail route from Janesville, are pleased to learn that Mr. Smith has recovered from his recent illness, and is again able to make the regular trips.

J. E. Dykeman and family are preparing to remove to Clinton.

BRODHEAD

Brodhead, March 6.—A very pretty home wedding took place at the home of Mr. and Mrs. E. E. Evans, Tuesday, the contracting parties being Mr. Rodney Bucklin of Verdun, S. Dak., and Miss Mae Evans of this city. The ceremony took place at high noon, and was performed by the Rev. Mrs. Moses Hull, of White-water. Just before the bride and groom took the solemn vows, Miss Jessie Green sang "When Love was Young," accompanied by Miss Maude Green. The bride wore a pretty gown of white organdie, with a pink rose in her hair and the groom was attired in the conventional black. The rooms were filled with the fragrance of beautiful flowers. After the ceremony the wedding dinner was served. Mr. Bucklin and his bride are both well known and highly respected in this city. Both have been students of our public schools, and Mrs. Bucklin has been a favorite before the public as a reader of more than usual ability. They left on the afternoon train for Rockford and after a week's visit will return to this city for a few days, before going to their home at Verdun, S. Dakota.

J. A. Young was in Chicago over Sunday on business.

Miss Alice Arnold of Hanover, is visiting at G. H. Condon's.

Mr. and Mrs. George Dawson spent Monday in Monroe on business.

Mrs. Wm. Schrader, E. Stabler and Mrs. Roenneburg and Mr. Frank Schrader and Miss Esther Schrader were in Monroe Tuesday.

Rev. Gray left for his new charge at Wauwatosa, this week, having been granted a week's rest before entering upon his new duties.

Mr. Elmer Hamilton was home over Sunday. He has been advanced to a position in the engraving clerk's office.

Mr. Willard Jury, who is in charge of a howling alley at Mineral Point, spent the past week with his parents in this city.

Miss Anna Stewart was a Janesville visitor Wednesday.

Mr. and Mrs. S. Steek went to Freeport on Monday morning, where they will make their future home.

Mr. Frank Hulbert of Peterson, Iowa, visited with his cousin, Dr. W. L. Stephenson, over Sunday.

Miss Nettie Chambers returned to Monroe on Monday after a few days' visit with relatives here.

Ed. Gilbertson of Devil's Lake, N. Dak., arrived in the city last Friday evening. He reports business in a prosperous condition, and is on his way to Chicago, to purchase a new stock.

Messrs. H. C. Putnam, B. J. Gardner, R. Woodling, T. Hartman and C. W. Lucas returned on Monday evening from their return trip. They visited at various parts of Virginia and Washington and all report a most excellent time.

Ed. Rabyor spent Sunday at Frank McDermott's.

More Havens and family vacated Arthur Russell's place Monday, Mar. 1.

Hattie Griffey is spending a few days at home.

Paul Itacher called at Wm. Hodge's Sunday.

Mr. Downing, a nursery man from Milton, called in this vicinity Wednesday.

Mrs. Irma Horne

Evergreen Camp No. 1135 Royal Neighbors of America, Magnolia, Wis., passed the following resolution at their meeting February 28.

Whereas, the angel of death has entered our camp, for the first time

and taken from our midst on Feb. 20, 1903, our beloved friend and Neighbor, Mrs. Irma Horne:

Therefore be it Resolved that we as a camp and individuals extend to the bereaved husband and relatives our earnest sympathy and assure them that while they mourn the loss of a dear one in the home, we mourn with them the loss of a dear friend and Neighbor; and be it further

Resolved, That our charter be draped in mourning thirty days, that a copy of these resolutions be sent to the local papers for publication and that a copy be spread on the records of the camp.

One by one they go before us. Only left us by the way. And our first fond link is broken. As our Neighbor passed away.

RAMSEY IS STILL OBDDURATE

Railroad President Admits That Filling Conductors and Engineers' Places Would Be Difficult, but Refrains From Making Concessions.

St. Louis, March 6.—An effort will be made in the United States Circuit court to secure a dissolution of the Wabash injunction this week. Attorneys E. J. Plancy of Cleveland, representing the Brotherhood of Railway Trainmen, and W. T. Irwin and John H. Murphy of Peoria, representing the Brotherhood of Locomotive Firemen, held a two hours' consultation at the office of Attorney F. N. Judson, who has been asked to become associated with them.

Grand Master Morrissey of the trainmen and Grand Master Hannan of the firemen said there were no developments in the situation beyond what might come from the consultations with the attorneys. President Ramsey stated that nothing new had developed in the Wabash side of the situation, and the matter was now entirely in the hands of the courts.

Under "Waiting Orders."

The feeling among the committee-men in St. Louis indicates that "waiting orders" have been issued and no new developments are expected pending the results of the attorneys' action. The prospect of the men striking as individuals or seeking to evade the injunction is considered remote. Many of the committeemen realize that the present situation is unique and to find a legal solution of it means much to organized labor of the entire country.

May involve 50,000.

Unless President Ramsey yields it is declared that engineers, conductors, telegraph operators, brakemen and trackmen to the number of 50,000 may become involved in the struggle. The rules of the orders prohibit striking without the sanction of their grand masters.

A communication was received from the leader of the various organizations of the Chicago teamsters and freight handlers stating that 10,000 men in that department were ready to join forces with the trainmen and firemen in case of a strike.

Look to Gould.

President Ramsey claims to be able to fill the positions of the trainmen and firemen in a few days should a strike result, but acknowledges that the matter of filling the conductors and engineers' places would be difficult.

One of the reports prevalent around the headquarters of the Wabash firemen is that George Gould is expected to come to St. Louis to bring about a settlement. It is known that brotherhood leaders wired Mr. Gould their terms at the same time that they presented their ultimatum to President Ramsey of the Wabash. The brotherhood leaders are said to have received a reply from Mr. Gould, the nature of which is not known. They refuse to discuss the Gould incident in any way.

LABOR TROUBLE AT RACINE, WIS.

Mob Attacks Officers and Nonunion Employees of Schoen Company.

Racine, Wis., March 6.—Fearing that they would be assaulted by a mob, officers of the Schoen Manufacturing Company have twice sought police protection. Stones, rocks, decayed fruit and other missiles were thrown at the officers and nonunion employees, and despite the work of the police all were forced back into the factory building and were followed to the doors by the angry throng of over 200 men and women.

Seek Proof of Mutiny.

Liverpool, March 6.—The four seamen of the bark Veronika, held on a charge of having murdered the captain and crew and then set fire to the bark, were again remanded. The prosecution is looking for more proof.

Colds-Coughs

We hate to see good friends of ours with coughs and bronchial affections that "hang on" doing nothing for the trouble and taking such chances, when we feel so sure that our **VINOL** would cure them. **VINOL** is a safe and certain remedy for all pulmonary troubles. It doesn't "dry up" a cough, but removes its cause. *Money back if you are not helped.*

GIVES RELIEF QUICKLY

Regular Use of Hyomel Cures Most Stubborn Case of Catarrh.

No other medicine gives such prompt relief as Hyomel in the treatment of catarrh.

The first breath of this remedy soothes and heals the irritated, and smarting air passages, and the regular use for a few days or weeks will cure the most stubborn case. Some of the reports from those who have been cured of catarrh by Hyomel read like miracles.

John S. Gray, of Redmon Hills, Pa., writes: "I am 82 years old and have been a sufferer with catarrh in the head for 25 or 30 years. I have doctored with many specialists and they have all told me that the disease was incurable on account of my age. After using Hyomel a short time I was greatly benefited, and can now say that I am entirely cured. It has been six months since I stopped using the remedy and I still remain cured."

In nearly every town and village of the country can be found those who have been cured of catarrh by Hyomel. In Janesville there are probably over a thousand people whose health have been restored by this remarkable treatment.

The People's Drug Co. have sold package after package and every one has been with their personal guarantee to refund the money if it did not cure. Only two outfits have been returned and in each instance the money was paid back without question.

You run no risk whatever in buying Hyomel and your word decides the question as to whether you pay for the remedy or not.

Can you afford to suffer longer with catarrh when you can buy a guaranteed treatment on this plan?
